FUNCIONES:

LIMITES Y CONTINUIDAD

③

a)

Dominio: $(-4, 4)$

Monotonía: Si

Simetría: Si

1) concepto de función

correspondencia entre dos variables, la variable "x" (independiente) y la variable "y" o $f(x)$ (dependiente), de modo que a cada valor de "x" le corresponde un único valor de "y".

si función

no función

4 formas de representar una función

1) enunciado "..."

2) tabla de valores

x	y
0	0
2	8

3) Expresión algebraica $y = 4x$

4) gráfica.
